### Covers & Cancels

Minor imperfections, including but not limited to: nicks, edge or flap tears or slight reductions are normal conditions for 19th century envelopes that have been postally transmitted. Folded letters would have at least one file fold. Acceptable forms of conservation include light cleaning and edge mending. Covers may have an ordinary stamp with a minor defect. The above exist in most 19th century covers and are not always described and therefore not grounds for return.

 Estimate HK\$200,000 - 300,000

*This exact stamp is the one illustrated in the 1944 Mar article by Chen Zhe Chuan in Shanghai. This stamp sparked a great philatelic debate in 1944 among the greatest Chinese philatelist of that time, which lasted for more than 6 months, with the result being the acceptance of this variety as genuine and the final formation of the "4 doubled and 8 inverted overprint varieties of the Empress Dowager stamps". The fact that this was the last variety proven genuine, among all 12, was important as it showed this stamp was very rare and had the least sightings, hence a general lack of knowledge about this variety. General belief was that this existed as a double pane and was CTO, so all recorded examples were used with the Customs Shanghai cds, with no mint stamps recorded. This stamp had been "lost" for the past 70 years, since 1944, and offered here for the first time ever. A once-in-a-life-time chance to own the "Discovery Copy" of this major Dowager variety.*

Forwarded on arrival in Philadelphia to South Dakota. It is also a scarce item, as there were very few covers sent from War occupied Peking directly to the US, Fine to Very Fine.
